## ***Indonesia – Earthquake***

Fact Sheet #5, Fiscal Year (FY) 2006

June 3, 2006

*NOTE: The last fact sheet was dated June 2, 2006.*

### **KEY DEVELOPMENTS**

- On June 2, the USAID Disaster Assistance Response Team (DART) assessed water, shelter, and health conditions in the sub-districts of Pleret, Sewon, Bantul, and Jetis in Bantul District. The USAID/DART reports that shelter is now the top priority for the disaster-affected population.
- The USAID/DART also reports that local capacity appears high in the assessed areas, with more than 100 local non-governmental organizations (NGOs) active in response efforts, and with high levels of private sector contributions and volunteers. The team observed that markets are operational throughout the assessed area.

NUMBERS AT A GLANCE		SOURCE
Dead	6,241	Government of Indonesia (GOI) SATKORLAK <sup>1</sup> – June 3
Injured	46,148	GOI – June 2
Homes Damaged or Destroyed	140,000	OCHA <sup>2</sup> – June 2

**Total USAID/OFDA Humanitarian Assistance Provided for the Indonesia Earthquake..... \$1,778,402**

**Total USAID/OFDA Humanitarian Assistance Pledged for the Indonesia Earthquake..... \$5,000,000**

### **CURRENT SITUATION**

#### *Numbers Affected*

- On June 3, the GOI Provincial Coordinating Body for Disaster Management reported 6,241 people dead, including 4,554 in Yogyakarta Province and 1,687 in Central Java Province.

#### *Water*

- Based on interviews with earthquake-affected families and operational NGOs, as well as through on-site infrastructure inspections in Bantul District on June 2, the USAID/DART confirmed that water supply is adequate in the assessed areas. However, boiling is required to make the water potable due to pre-earthquake levels of contamination in the water supply.

#### *Shelter*

- According to the USAID/DART, most affected families are living near their damaged houses, either on their land parcel or within the same neighborhood. Living close to home has enabled families to access their water supply, and in many cases their sanitation facilities.
- In addition, the USAID/DART observed that the affected communities have begun clearing rubble from their houses in all of the visited areas.

#### *Health*

- On June 2, the USAID/DART met with representatives of USAID partner, the International Medical Corps (IMC), at the IMC tented clinical compound in Bantul District. The facility comprises an outpatient clinic as well as mobile clinics serving a target population of 263,000 people. Since the clinic first opened on May 29, the IMC medical coordinator reported decreasing attendances at the clinic, down to 35 patients on June 2. IMC is also operating two primary mobile clinics in southern Bantul sub-district.
- According to the USAID/DART, although additional foreign medical teams continue to arrive in Java, local authorities report a decrease in new cases of acute trauma.

#### *USAID/DART Deployment*

- As of June 3, the nine USAID/DART members are on the ground in the affected areas, conducting site visits and meeting with humanitarian agencies. Close coordination continues between the USAID/DART, USAID/Indonesia staff in Yogyakarta, U.S. Embassy, and U.S. military colleagues.

## U.S. GOVERNMENT HUMANITARIAN ASSISTANCE

### *USAID Assistance*

- As of June 2, USAID/OFDA has pledged \$5 million for earthquake response activities. To date, emergency assistance provided by USAID totals more than \$1.7 million, which includes emergency health and shelter activities, airlifts and distribution of relief commodities, and support for humanitarian coordination efforts.
- On June 2, USAID/OFDA approved \$50,000 to the International Organization for Migration (IOM) to provide mobile health services to communities and transport patients to the U.S. military field hospital for treatment.
- As of June 2, USAID/OFDA is providing \$75,000 for OCHA to support humanitarian coordination and information efforts.
- On June 1, a second USAID/OFDA airlift carrying four emergency medical kits arrived in Yogyakarta. A third USAID/OFDA airlift containing four additional emergency medical kits is scheduled to arrive on June 6. The first USAID/OFDA airlift arrived on May 29, transporting 150 rolls of plastic sheeting, 10,200 ten-liter water containers, and 5,004 hygiene kits. The value of these relief supplies, including transport, is more than \$361,000.
- USAID/OFDA provided \$1 million to support relief activities through the International Federation of Red Cross and Red Crescent Societies (IFRC) Emergency Appeal on May 28.
- On May 27, USAID/OFDA provided \$124,000 through an existing agreement with IMC to support the deployment of a 65-person emergency medical team from Indonesian non-governmental organization (NGO) Ambulan 118.
- On May 27, U.S. Ambassador to Indonesia B. Lynn Pascoe declared a disaster due to the impact of the earthquake. The same day, USAID/OFDA provided \$100,000 through International Federation of Red Cross and Red Crescent Societies (IFRC) to support the Indonesian Red Cross (PMI) relief operations to meet the immediate needs of those affected by the earthquake.

### *DOD Assistance*

- As of June 2, approximately 110 U.S. military personnel are on the ground in the affected area. The U.S. Marine Corps Fleet Surgical Company field hospital treated more than 100 patients on June 1, and continues to provide care ranging from basic clinical services to surgery. On June 1, several U.S. military KC-130s and one C-17 aircraft delivered generators, medical supplies, and water purification equipment.
- Four U.S. military health teams began health assessments in Bantul and Klaten districts on June 1. The teams are developing a list of surgical equipment needs for major health facilities in the disaster-affected area. An additional 16 U.S. military medical personnel are currently on stand-by in Singapore for possible deployment to Yogyakarta.

## USG HUMANITARIAN ASSISTANCE TO INDONESIA

<i>Implementing Partner</i>	<i>Activity</i>	<i>Location</i>	<i>Amount</i>
<b>USAID/OFDA ASSISTANCE</b>			
IFRC/PMI	Shelter and health	Affected areas	\$100,000
IMC/Ambulan 118	Emergency medical response	Affected areas	\$124,000
IFRC	Shelter and health	Affected areas	\$1,000,000
IOM	Logistical support	Affected areas	\$50,000
OCHA	Humanitarian coordination and information	Affected areas	\$75,000
Various	Emergency relief supplies and transport	Affected areas	\$323,096
Various	Emergency relief supplies (en route) and transport	Affected areas	\$38,586
	DART administrative costs		\$67,720
<b>TOTAL USAID/OFDA ASSISTANCE FOR INDONESIA EARTHQUAKE IN FY 2006</b>			<b>\$1,778,402</b>

<sup>1</sup> USAID/OFDA funding represents anticipated or actual obligated amounts as of June 3, 2006.

## PUBLIC DONATION INFORMATION

- The most effective way people can assist relief efforts is by making cash contributions to humanitarian organizations that are conducting relief operations. A list of humanitarian organizations that are accepting cash donations for earthquake response efforts in Indonesia can be found at [www.interaction.org](http://www.interaction.org).
- USAID encourages cash donations because they allow aid professionals to procure the exact items needed (often in the affected region); reduce the burden on scarce resources (such as transportation routes, staff time, warehouse space, etc); can be transferred very quickly and without transportation costs; support the economy of the disaster-stricken region; and ensure culturally, dietary, and environmentally appropriate assistance.
- More information can be found at:
  - USAID: [www.usaid.gov](http://www.usaid.gov) – Keyword: Donations
  - The Center for International Disaster Information: [www.cidi.org](http://www.cidi.org) or (703) 276-1914
  - Information on relief activities of the humanitarian community can be found at [www.reliefweb.int](http://www.reliefweb.int)

USAID/OFDA bulletins appear on the USAID web site at [http://www.usaid.gov/our\\_work/humanitarian\\_assistance/disaster\\_assistance/](http://www.usaid.gov/our_work/humanitarian_assistance/disaster_assistance/)
